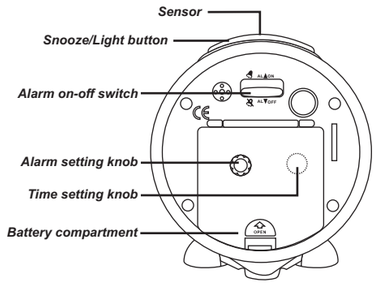
13422X SMARTLITE® ALARM CLOCK

Please read these instructions and keep them in a safe place for future reference. You will need to insert the batteries (included) to start the clock.

Smartlite® Feature
Your clock incorporates an innovative new technology called Smartlite®. Smartlite® is designed to give a gentle glow to the dial for easy reading in low light conditions. The clock has a automatic sensor which switches the light ON/OFF as light conditions in the room change.

Light button
Pushing the light button down will light up the display. This feature is too bright to stay permanently on the display in low light conditions.

To activate the clock
Insert 3 x AA batteries into the battery compartment, polarity (+) and (-) as indicated.



To set the time
Open the battery cover and turn the 'Time setting knob' in the direction of the arrow to set the hour and minute hand to the correct time.

To set the alarm time
Turn the 'Alarm setting knob' in the direction of the arrow to set the red alarm hand to the desired wake up time.

To turn ON/OFF the alarm
Slide the alarm ON/OFF switch to the AL.ON position to turn ON the alarm.
Slide the alarm ON/OFF switch to the AL.OFF position to turn OFF the alarm.

To use the snooze
When the alarm sounds, press the 'SNOOZE' button to stop the alarm. The alarm will stop and sound again after 5 minutes. The snooze feature can be repeated until the alarm ON/OFF switch is turned OFF.

To use the light button
Press and hold the 'Snooze/Light button' to light the dial. The light will turn OFF if the button is not pressed down.

P.T.O

Trouble shooting

The clock does not work
* Change the batteries.
* Check polarity (+) & (-) as indicated.

The light does not work
* Change the batteries
* Check polarity (+) & (-) as indicated.
* Make sure the Light button is pushed down, the light will turn OFF if the button is not pressed down.
* The room is not dark enough.

Smartlite® does not work
* Change the batteries.
* Check polarity (+) & (-) as indicated.
* The room is not dark enough.
  Note: The smartlite® feature is designed to give a gentle glow to the dial for easy night time viewing. The dial will automatically illuminate only when the light levels in the room drop.

The Light is brighter than the Smartlite® feature
This is correct, as the Light feature would be too bright to stay permanently on during the night. The smartlite® gently lights the display for easy reading during low light conditions.

CHANGING THE BATTERY
- It is recommended that you replace the battery annually, even if the product is still running.
- Only use AA (1.5V) Alkaline batteries in this clock.
- Please dispose of used batteries in a responsible manner.

MAINTENANCE
A soft cloth may be used to clean your clock. Do not use any corrosive cleaner or chemical solutions on the clock. Keep the clock clean and dry to avoid any problems.

YOUR GUARANTEE
Your clock is guaranteed for 12 months from the date of purchase against any faults arising from defective materials or manufacture. Damage caused through careless handling, misuse or in transit is expressly excluded. Should this clock fail within 12 months please return it in the first instance to your retailer.
